“ Shaping young dreams into a bright future ”

Chairman's desk

I envision a place that reflects the ideals of Sri Rabindranath Tagore—a place where education embodies understanding, love, respect, and care for the child. To me, education is an attitude—one of expectation, patience, liberation, and restraint. It's about accepting a child's mistakes, correcting them, tolerating stubbornness and guiding it, and embracing defiance while helping them find common ground. We must believe that every child possesses the essential qualities for true education. Each child has something unique, an innate spark of creativity and strength within them, presented by life itself for them to accept or reject. Our task is to nurture this potential, cultivate it, and channel it for meaningful purposes.

At Cambridge International School, our educational philosophy is centered around providing an environment where a child's learning flourishes, multiplies, and converges into a unified understanding of truth. We believe that learning should be enjoyable and that by fostering mutual respect and valuing each opportunity, children will grow and learn together. We emphasize teamwork, unity, and create an atmosphere that feels more like a family than a traditional school. The school promotes a positive attitude in children, staff, and parents, empowering children to reach their full potential and make choices free from gender or role-based expectations. Our aim is to serve all children, regardless of gender, ability, creed, faith, or background.

Our curriculum is designed to foster creativity, historical, geographical, and sociological awareness, as well as scientific curiosity and mathematical understanding. Beyond academics, our campus offers a wide array of extracurricular activities to ensure holistic development. Above all, our educational foundation is built on developing inquisitive, creative minds capable of observing, analyzing, and evaluating the world around them.

Rajesh Srivastava
Chairman

The School

- *The Importance of Education in Contemporary times*

In this never-ending race of life, education is the ultimate cornerstone of individual growth and societal progress. It empowers individuals with knowledge and critical thinking, paving the way for skills like time management, decision making and problem-solving, enabling them to contribute effectively to society. In today's globalised economy, education is essential for fostering innovation, adapting to technological advancements and addressing new age challenges.

Today's rapidly changing world, where knowledge is growing at an unprecedented rate, the education system must prepare young minds with the skills necessary for innovation, resilience, and success in this digital age. At Cambridge International School, under the guidance of the Cambridge International School Society, we view education as more than just the transmission of information. It's a dynamic process focused on building concepts, applying practical knowledge, and offering personalized learning to address the gaps left by traditional approaches.

The 21st century is marked by an overwhelming flow of information, cutting-edge technologies, and a constant shift in society. While daily life becomes more convenient, global competition intensifies. In this fast-paced era, the ability to adapt, evolve, and continuously learn has become essential for success. In addition to traditional skills in English, Mathematics, Science and Technology, young souls must embrace a broader set of competencies to thrive in the modern world. They need to be adept at working with ideas and abstractions, capable of effective analysis and synthesis. Self-discipline, organization and the ability to learn rapidly are essential traits, as is the capacity to collaborate within teams and adapt flexibly to the ever-changing demands of the labor market.

- [About us](#)

Cambridge International School, under the aegis of Numerica International School of Innovation, affiliated to the Central Board of Secondary Education, New Delhi, is an English medium co-educational institution.

Cambridge International School, a newly established institution affiliated to the Central Board of Secondary Education, New Delhi, emphasize holistic learning, which nurtures the intellectual, emotional, social, and physical development of students. This approach ensures a well-rounded education, fostering creativity, critical thinking, and emotional intelligence. By integrating academic knowledge with life skills, values, and extracurricular activities, we prepare students to become balanced, responsible, and compassionate individuals ready to contribute positively to society.

For parents seeking an alternative, we also provide the option of the Cambridge International curriculum, subject to applicable changes. Our flexible approach ensures students receive a quality education tailored to their aspirations, preparing them for success in a global environment.

Vision

Creating 'Global Citizens'

Cambridge International School is founded on the principle of nurturing 'Global Citizens' who are well-rounded, culturally aware, and socially responsible. We believe in fostering a diverse and inclusive environment where students develop critical thinking, empathy, and a global perspective. Our curriculum encourages exploration, innovation, and collaboration, preparing students to thrive in an interconnected world and make meaningful contributions to society.

“ Shaping young dreams into a bright future ”

Mission

Total Quality Management

At Cambridge International School, we implement Total Quality Management (TQM) in education to ensure continuous quality improvement across all aspects of learning and administration. By adopting TQM principles from management, we focus on enhancing teaching methodologies, student outcomes, and overall school performance. This approach fosters a culture of excellence, accountability, and collaboration, ensuring that every student receives a high-standard, well-rounded education.

“ Turning Dreams into Destinations ”

Distinctive Traits

Critical Thinkers

Students develop strong analytical and problem-solving skills, enabling them to approach challenges thoughtfully and creatively.

Globally Aware

They exhibit cultural awareness and empathy, understanding global perspectives and respecting diversity.

Collaborative Learners

Students thrive in teamwork, valuing collaboration and communication in both academic and social settings.

Committed to Excellence

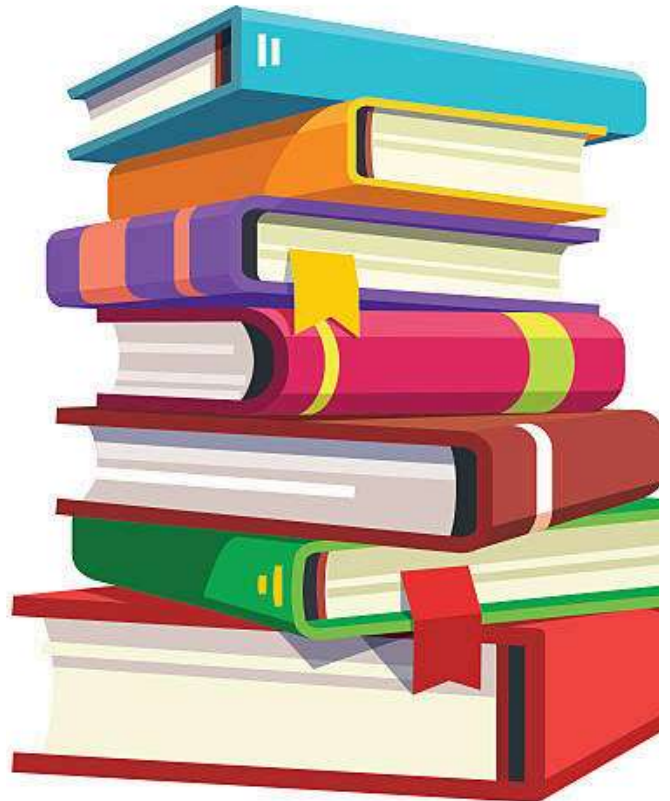

They demonstrate a dedication to continuous improvement, striving for personal and academic excellence in all endeavors.

Pedagogy

- Our belief system

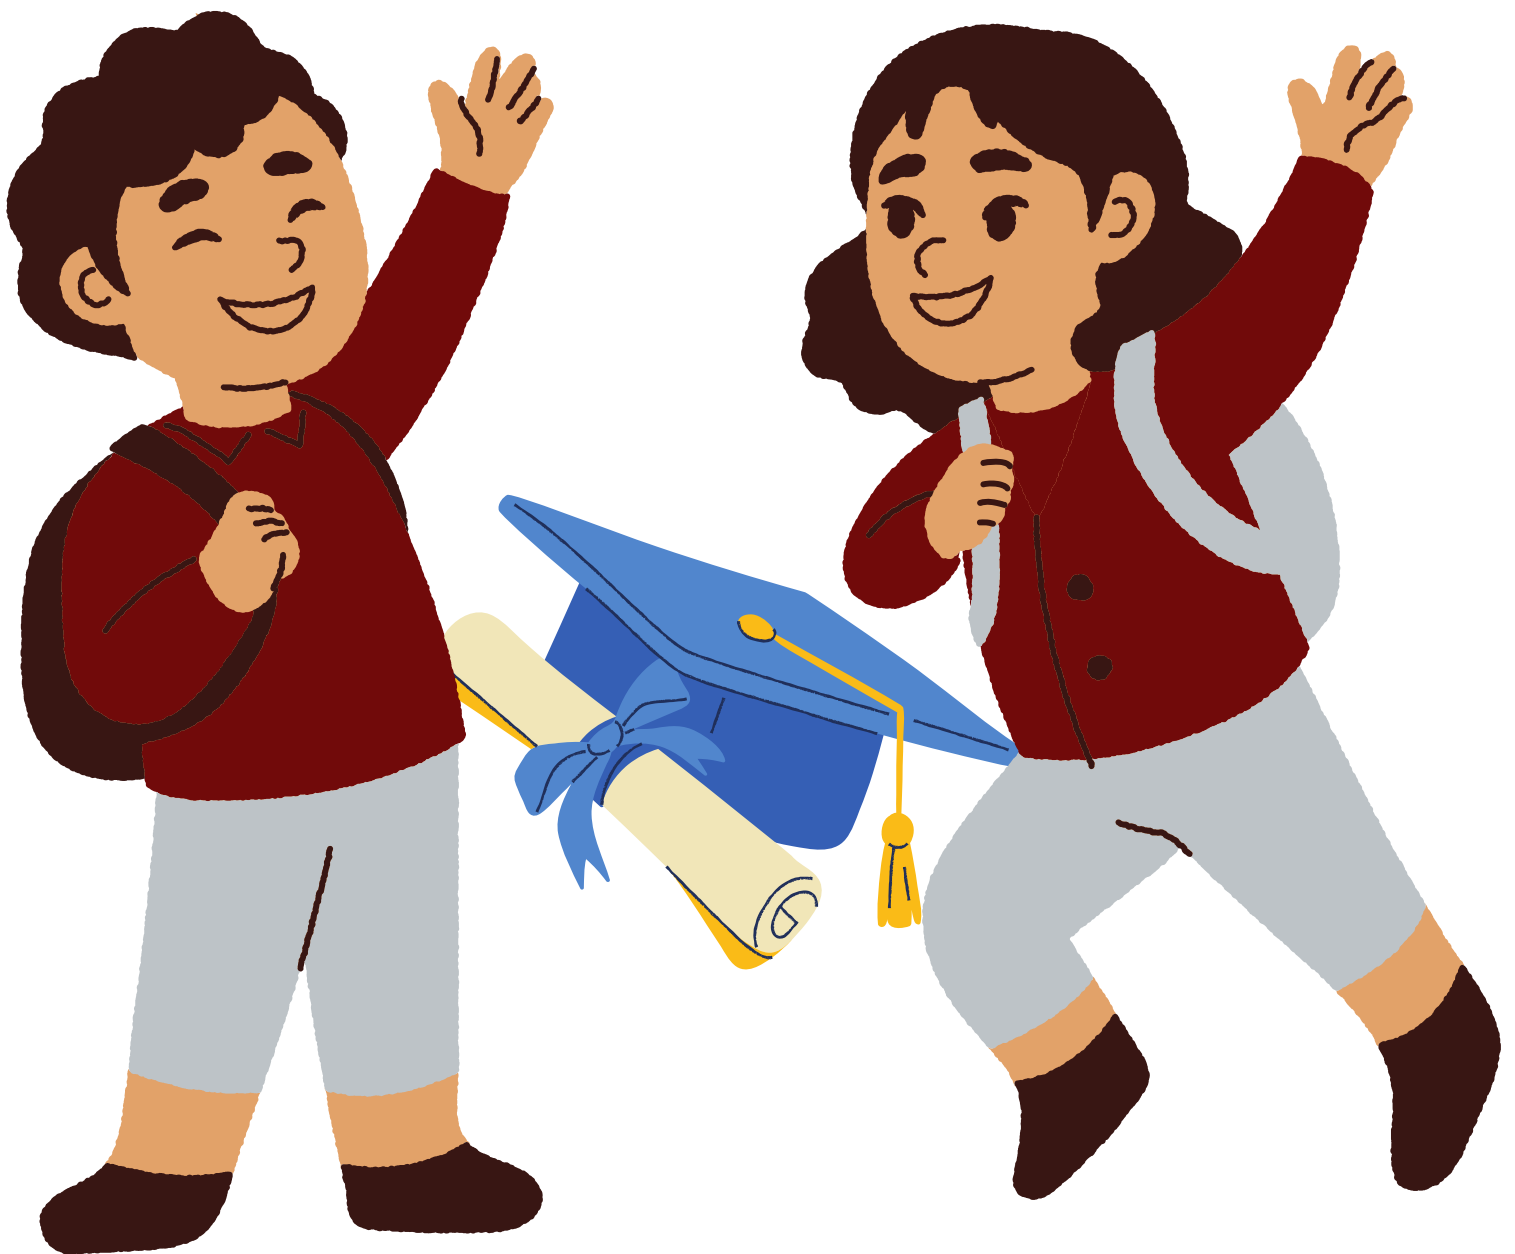

Cambridge International School is a true temple of learning, weaving together the key elements of education to create the best possible learning experience for students. We provide a nurturing environment that fosters growth, evolving perspectives, and a clear sense of purpose, preparing students to face life's challenges with confidence and ease. At Cambridge International School, we believe in engaging students in education as an “experience” rather than a “compulsion.” We strive to eliminate the barrier between faculty and students, encouraging a collaborative and participatory learning environment.

At Cambridge International School, we view the relationship between the school and its students as a bond between two souls. Our teaching philosophy is rooted in the belief that “nothing can be taught; the teacher is a helper, friend, philosopher, and guide.” The teacher’s role is to inspire, not impose, showing the child how to refine the tools of knowledge while encouraging independent exploration. Learning happens best through action and discovery, not passive reception of facts. For children, every action is an experiment, and our teachers and campus are designed to nurture inquisitiveness and foster the exponential growth of young minds.

“ Where Young Minds Soar Towards Excellence ”

At Cambridge International School, we are committed to contributing to the nation's human wealth, recognising that India's 'Human Capital' is one of its most valuable assets to the world. Our rich traditions and values serve as a unique source of competitive advantage. As India advances towards becoming a global hub of knowledge, it challenges the historical "ignorance hypothesis" that has shaped perceptions of economic and social equality worldwide. Today, global economies acknowledge our technological innovations and the vast potential of the 'Human Capital' we proudly nurture and possess.

Highlights

Vedic GPT

Vedic GPT at our school combines ancient wisdom with modern technology, enhancing learning and creativity.

Tech-Integrated Smart School

The school is fully tech-enabled, with CCTV, advanced labs, and real-time parent notifications.

Tailored Guidance

Class sizes of 20-25 ensure personalized attention for every student.

Mentorship Programme

Students aspiring to take competitive exams will receive dedicated support.

Student Talent Program

Our Student Talent Program is designed to identify and nurture the unique abilities of each student. Through offering personalized mentoring and diverse opportunities in sports, arts, and leadership, we empower students to explore their passions, enhance their skills, and achieve excellence, both inside and outside the classroom.

Performing Arts

Our Performing Arts program encourages creativity and self-expression through music, dance, drama, poetry etc. Students develop confidence, teamwork, and artistic skills, preparing them for future success in the arts and beyond.

Personality Development

Cambridge International School believes that personality development is a process that enhances students' psychological intelligence, communication, and interpersonal skills. It also fosters leadership qualities and other essential traits, empowering students to engage confidently and effectively with others.

Students can actively engage in debates, presentation skills, public speaking, reading sessions, Spell Bee competitions, elocution activities etc.

Clubs

CIS offers a variety of clubs, including the Literary Club, Green Initiative Club and many more, designed to nurture students' interests in environmental awareness, and community engagement, encouraging students to explore their passions, collaborate with peers, and make meaningful contributions to society.

Imagination Station

At Imagination Station at CIS, exploring unconventional interests is the priority. An excellent way to explore one's personality and uncover hidden talents. This module offers a wide range of activities, ensuring every child discovers something that captivates their interest.

Facilities

Smart campus

Our school boasts a state-of-the-art smart campus, featuring Wi-Fi-enabled facilities, smart classrooms, and world-class IT infrastructure. This modern setup enhances interactive learning, ensuring students stay connected, engaged, and equipped with the latest technological tools to support their academic growth and prepare them for a digitally-driven world.

Physical Development

A diverse sports program, featuring both outdoor and indoor games to promote wellbeing. Qualified coaches are available to guide the students, helping them to refine their techniques and achieve personal goals.

Additionally, CIS organizes inter-school tournaments and friendly matches, providing students with opportunities to showcase their talents and compete in a supportive environment. Beyond the physical benefits, the sports program aims to instill important life skills such as teamwork, leadership, and perseverance.

Transportation

CIS offers a well-equipped transportation system, including school buses with washrooms for added convenience. Parents receive real-time notifications if their child is absent, ensuring peace of mind and safety. This reliable service provides a comfortable and secure travel experience for students, supporting their daily commute efficiently.

Security Services

Our school prioritizes security with trained security personnels including female security guards and comprehensive CCTV coverage throughout the campus. Specialized personnel are dedicated to ensuring the safety of all students and staff. This robust security system creates a secure environment, giving parents peace of mind and sense of security. Additionally, regular safety drills are conducted to prepare everyone for any potential emergencies, fostering a culture of awareness and preparedness.

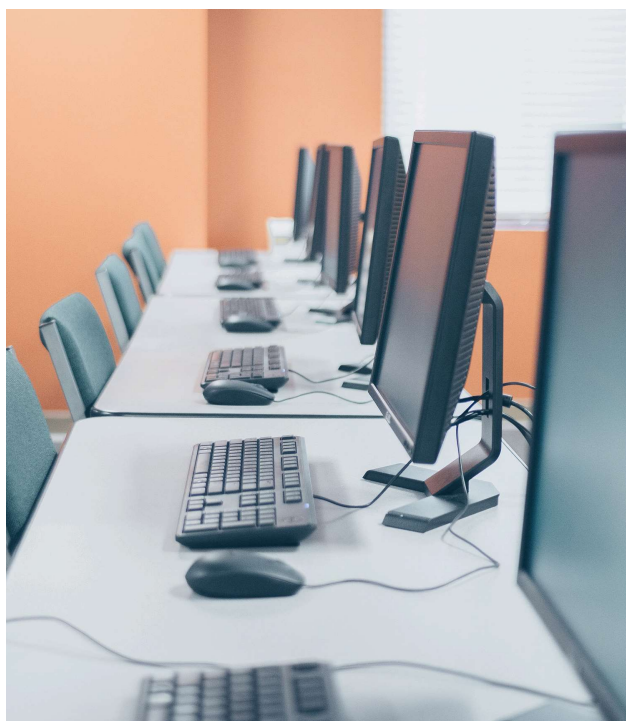

Montessori Lab

Lab designed for primary students offering a nurturing environment where young learners explore through hands-on activities and self-directed learning. This approach helps students develop foundational skills, creativity, and a love for learning in a supportive and engaging setting.

Healthcare facility

The school clinic is staffed with qualified medical professionals to ensure the health and well-being of students. Equipped to handle minor injuries and illnesses, it provides immediate care and first aid. The clinic also conducts regular health check-ups, promoting a safe and healthy environment for all.

Laboratories

CIS provides state-of-the-art labs, including Maths, Science, IT, AI and Vedic GPT labs, to enhance hands-on learning and innovation. These well-equipped labs offer students practical experience, fostering curiosity, critical thinking, and technological proficiency. Students have the opportunity to engage with real-world applications, encouraging them to explore and experiment beyond textbooks.

Cafeteria

CIS offers cafeteria providing a clean and welcoming space where students enjoy nutritious and delicious meals. Offering a variety of healthy options, the cafeteria promotes balanced eating habits. With a focus on hygiene and quality, it ensures students are well-nourished. Cafeteria's eco-friendly practices, such as minimizing food waste and using sustainable materials, reflect the school's commitment to environmental responsibility.

“ Where students unlocks endless possibilities ”

Guest Visits: Our school regularly hosts guest talks and motivational speeches from distinguished dignitaries, including academicians, technocrats, bureaucrats, doctors, and scientists. These experts visit to deliver insightful lectures, offering students valuable one-on-one interactions that inspire and motivate them to reach their full potential.

Educational Excursions: Organized both locally and to distant places, to provide practical learning experiences related to various subjects. Local trips include visits to places like banks, printing presses, and post offices, while long-distance excursions are arranged for senior classes to broaden their knowledge and understanding of different cultures, history, and industries, fostering experiential learning and growth.

Morning Assemblies: Each day, a class is assigned the responsibility of organizing the assembly. This responsibility encourages students to collaborate, make decisions, and showcase creativity, fostering teamwork and leadership skills. It provides an opportunity for students to express themselves, share ideas, and contribute to the school community.

Fancy Fair/ Cultural Festivals/ Investiture Ceremony/ Annual Day: A tradition to celebrate that fosters a sense of community and school spirit among students. These vibrant occasions foster a sense of community, encourage participation, and highlight cultural diversity, while providing students with opportunities to showcase their talents and leadership in a festive atmosphere instilling thinking attitude and power of independent judgment. Students learn to plan, organize and execute the event under the express guidance of Teachers.

Houses and Wall Magazines: Students display their creativity through inter-house competitions, including wall magazine contests, singing, dancing, skits, art, sculpture exhibitions, and innovative models/projects, fostering healthy competition. House Masters and Captains lead meetings to encourage participation in various events and preparation for wall magazines on current topics.

Competitions: CIS encourages students to participate in a variety of inter-school, district, state and national competitions organized by reputable bodies such as CBSE, SOF, NTPC, LIC, AIR, and others. These include Olympiads, NTSE, quizzes, debates, and painting competitions. Additionally, clubs like Rotary and Lions Club of India host various contests, fostering a strong competitive spirit among students.
